WikiBento — the 36 widget types, and how they relate

Rows: what you must supply. Colours: the Add-widget panel's own families. Badges: what gates a card. Generated from public/manifest.json — 2026-10-09

36 types = 33 data-driven + 9 static · 13 publish an output another card can consume · 5 consume another card's output · 9 need a category from the Commons Impact Metrics allow list

Nothing but your own text

you bring the words (or the switch) — no subject to look up

- **Text / Markdown** — ▤ ⚡ display
- **QR Code** — ▤ ⚡ ✧ display
- **Speaker (TTS)** — ▤ ⚡ ⇢ effector
- **Translator (MinT)** — # ✧ ai
- **Board Controls** — # ⚡ controller
- **Text List** — 🏆 ⚡ ✧ source

Nothing at all — a platform-wide ranking

aggregate statistics about wikis and articles, no subject of yours

- **Top Articles** — 🏆 🔌 source
- **Top 10 Wikipedias** — 🏆 source
- **Wiki Stats** — # source

A page

an article, a template, any wiki page — you name it, the wiki is a setting

- **Article Pageviews** — # source
- **Article Excerpt** — # ✧ source
- **Edit History** — 🏆 source
- **Quality (ORES)** — # source
- **WikiProject Assess.** — 🏆 source
- **Article List** — 🏆 source
- **Wiki Page** — ▤ ⚡ display
- **Wikipedia Box** — # ✧ display

A Commons category

any category, walked live

- **Category Size** — # source
- **GLAM Usage (live)** — # source

A category in the CIM allow list

Commons Impact Metrics — precomputed, and only for ~1,775 registered primary categories

- **CIM Snapshot** — # ✧ source
- **CIM Views / time** — 📈 ✧ source
- **CIM Top-N** — 🏆 ✧ source

Files & media

a file, a list of files, or a category/article that yields them

- **Gallery** — 🖼 ✧ display
- **File Usage by Wiki** — 🏆 source
- **Media Player** — # source
- **360° Panorama** — 🖼 source
- **Document Reader** — # ✧ source

A URL, a domain or an archive item

something that lives elsewhere: a site, a domain, an archive.org identifier

- **Wayback Gallery** — 🖼 🔌 α source
- **External Link Count** — # source
- **IA Item Stats** — # ✧ source
- **IA Book** — # ✧ source

A query or a place

you write the query, or give a coordinate / QID / page title

- **SPARQL Query** — # source
- **Map** — # 🔌 ✧ ⇢ display

Another card's output

a transformer, a reducer and a readout — useless until something publishes to them

- **Filter Lines** — 🏆 ⚡ ✧ ⇢ transformer
- **Line Count** — # ⚡ ✧ ⇢ reducer
- **Value Display** — 🏆 ⚡ ✧ ⇢ display

How they relate

A card publishes a value on the board; another card reads it.

SHIPPING CHAINS

Article Excerpt → Translator → Speaker

text → language → voice

Text List → Filter Lines → Line Count → Value Display

lines → a number

Gallery → Media Player → Article List

files / lines → a card

BOARD PARAMETERS (a hub, not a chain)

Board Controls → {{name}} in any field

one click re-aims every card that references it

A BOARD IS…

- widgets: {id, widgetType, config}
- layout: {i, x, y, w, h} for each id
- params: named inputs, used as {{name}}
- references: source id, or {{widget:id}} in text

THE 16 PUBLISHERS (✧) — WHAT THEY EMIT

- ✧ QR Code value
- ✧ Gallery lines/value
- ✧ CIM Views / time value
- ✧ Wikipedia Box lines/value
- ✧ Map geojson
- ✧ IA Book value
- ✧ Text List lines
- ✧ Line Count count
- ✧ Article Excerpt extract/value
- ✧ CIM Snapshot value
- ✧ CIM Top-N lines
- ✧ Translator (MinT) value/speech
- ✧ IA Item Stats value
- ✧ Document Reader value
- ✧ Filter Lines lines
- ✧ Value Display value

THE 5 CONSUMERS (⇢)

Speaker (text-to-spee… · Map · Filter Lines · Line Count · Value Display

a source field names the publisher; {{widget:id}} works in any text field

BADGES

- ✧ publishes an output another card can consume
- ⇢ consumes another card's output
- ⚡ static — renders from config, no fetch
- 🔌 needs our relay (map image, hatnote ranking, archive CDX)
- α alpha

FAMILIES (the Add-widget panel)

- Articles
- Files & Media
- Content & Embeds
- Dataflow
- Categories & GLAM
- Rankings & Platforms
- Queries & Power
- Web & History

WHAT YOU GET

- # a number or a mini-report
- 🏆 rows: a ranking, a list, a table
- # a live query result
- 📈 a chart over time
- 🖼 pictures, media, a document
- ▤ a framed page or picture
